

Aflatoxin B1/Aflatoxina B1

| Value (ppb)<br>Valor (ppb) | Rango<br>Rango |
|----------------------------|----------------|
| <5                         | Low/ Bajo      |
| 5-20                       | Medium/ Medio  |
| ≥20                        | high/Alto      |

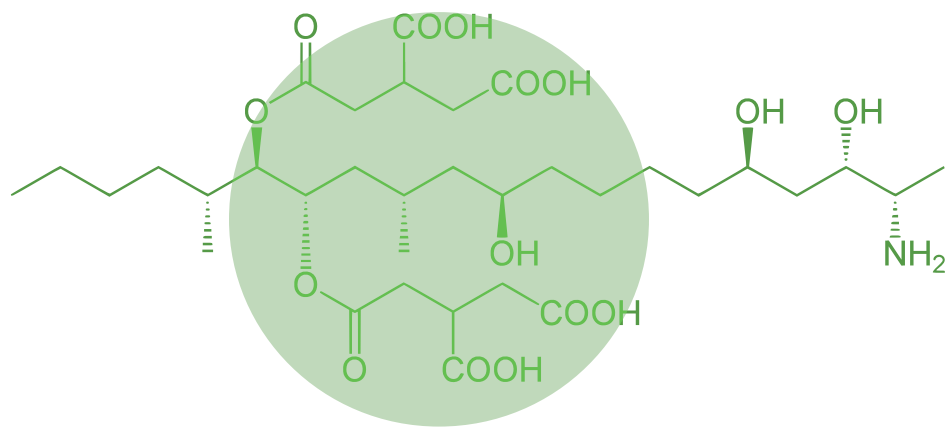

Vomitoxin DON/Vomitoxina DON

| Value (ppb)<br>Valor (ppb) | Rango<br>Rango |
|----------------------------|----------------|
| <1.000                     | Low/ Bajo      |
| 1.000-1.800                | Medium/ Medio  |
| ≥1.800                     | high/Alto      |

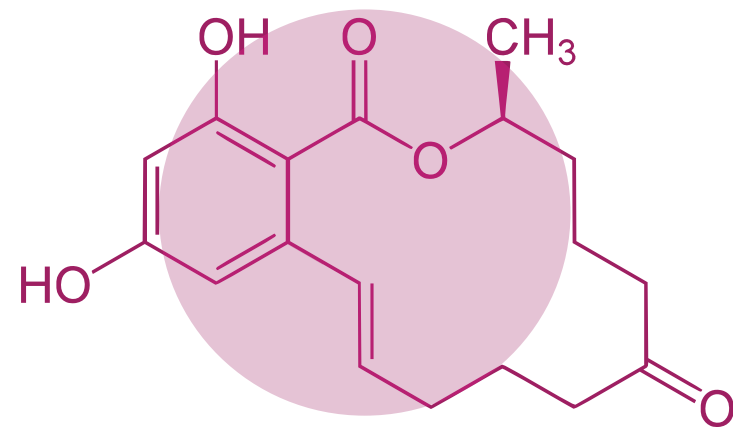

Ochratoxin A/Ocratoxina A

| Value (ppb)<br>Valor (ppb) | Rango<br>Rango |
|----------------------------|----------------|
| <50                        | Low/ Bajo      |
| 50-250                     | Medium/ Medio  |
| ≥250                       | high/Alto      |

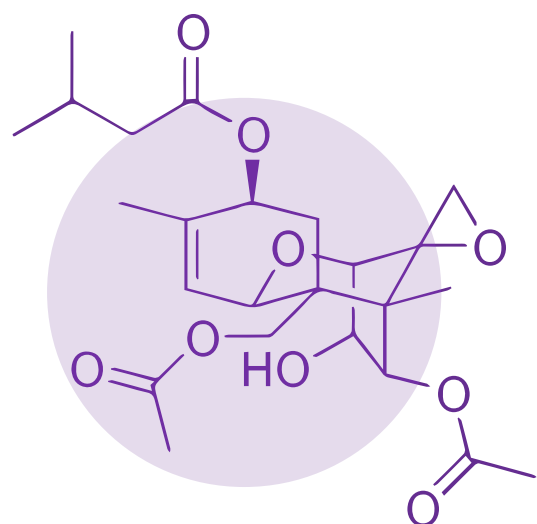

Fumonisin B1/Fumonisina B1

| Value (ppb)<br>Valor (ppb) | Rango<br>Rango |
|----------------------------|----------------|
| <5.000                     | Low/ Bajo      |
| 5.000-20.000               | Medium/ Medio  |
| ≥20.000                    | high/Alto      |

Zearalenone/Zearalenona

| Value (ppb)<br>Valor (ppb) | Rango<br>Rango |
|----------------------------|----------------|
| <300                       | Low/ Bajo      |
| 300-1.000                  | Medium/ Medio  |
| ≥1.000                     | high/Alto      |

Toxin T2 + HT2/Toxina T2 + HT2

| Value (ppb)<br>Valor (ppb) | Rango<br>Rango |
|----------------------------|----------------|
| <150                       | Low/ Bajo      |
| 150-500                    | Medium/ Medio  |
| ≥500                       | high/Alto      |

Low range:  
No action.  
Rango Bajo:  
Ninguna actuación.

Medium range: Communication to manufacturers of each System.  
Each System decides on the action.  
Rango Medio: Comunicación a los fabricantes de cada Sistema.  
Cada Sistema decide la actuación.

Rango Alto: Comunicación a fabricantes de cada Sistema, proveedores y FORO DE DERIO.  
High range: Communication to manufacturers of each System, suppliers and DERIO FORUM.
